

Less Teacher Planning, More Student Learning

Real-world, choice-based creative projects:

- Inspire and excite students to plan for their future.
- Provide choice-based, structured guidelines.
- Give detailed explanations and visual examples on color resource cards.
- Reach students' diverse personalities, abilities and learning styles in a personal way.
- Produce compelling student exhibits, presentations and written portfolios.

A structured program that adapts to your ever-changing curriculum and:

- Saves hours of planning and preparation time with ready-to-use project materials.
- Assesses with clear objective-based teacher assessments and student self-assessments.
- Culminates with project expos where students share their accomplishments.

"Envision is an excellent supplemental curriculum for students who are accelerated or highly motivated. The projects tap multiple intelligences, allow creativity and incorporate "real-life" learning and presentation opportunities. I love Envision and highly recommend it to your district as well."

– Timothy Allard, Principal, Otsego Public Schools: Dix Street Elementary, Michigan

This is Kayla's "Backyard Getaway" Exhibit

Each Program Includes Four Projects Along With:

Teacher Instruction Guide	Detailed steps and helpful examples
Student Instruction Guides	Clear high-level objectives

envision®

An inspirational real-world program for gifted learners

Teacher-Created to Challenge and Stimulate
Envision is a dynamic, real-world series of multidisciplinary programs created by a classroom teacher. Each yearlong program progresses through four independent projects that are as challenging as they are fun. Based on high-level thinking and student interest, Envision results in high student achievement. With detailed steps, examples and ready-to use forms, teachers are thrilled with its ease of use.

"I love that Envision is easy to implement with its helpful and gradual steps. I like that it can be used throughout the school year and that it allows for a lot of flexibility in scheduling. The forms provide all I need to facilitate successful projects, and it is wonderful to have my planning done for me so that I can enjoy watching my students grow."

– **Mitzi Hetherton, Extended Learning Program Teacher, Johnston Community School District, Iowa**

Grade 3 Projects

Pet Parade: Choose and research a future pet to adopt or purchase.

Giving Journey: Choose a gift for someone, and create a plan to work for it.

Discovery Science: Design and conduct a scientific experiment.

Curiosity Expedition: Research an exciting topic of your choice.

Pet Parade Excerpt (Grade 3)

Pet T.V. Commercial: Using your research, create a commercial advertising your pet as the best pet to own. Be sure to include some visual that shows your pet. You may choose from any type of commercial for your presentation. Your commercial can be live or taped, and should last thirty to ninety seconds.

Sample Student Page and Resource Card
